

REMARKS

At the outset, the Examiner is thanked for the thorough review and consideration of the pending application. The final Office Action dated September 20, 2005, has been received and its contents carefully reviewed.

Claims 30-51 are withdrawn in this application. Claims 1, 8, 9 and 11-13 are rejected. Applicants thank the Examiner for indicating that claims 2-7, 10 and 14-29 recite allowable subject matter. Claims 1-51 remain pending in this application.

Applicants note that the Examiner has not indicated or acknowledge the IDS filed by petition on August 5, 2005. That petition requested the entry of an IDS filed that same day in co-pending application 10/184,096. A copy of the petition and IDS are enclosed for the Examiner's reference.

In the Office Action, claims 1, 8, 9 and 11-13 are rejected under 35 U.S.C. § 102(b) as being anticipated by U.S. Patent No. 6,593,992 to Chin et al. (hereinafter "Chin").

The rejection of claims 1, 8, 9 and 11-13 is respectfully traversed and reconsideration is requested. Claims 1, 8, 9 and 11-13 are allowable over the cited references in that each of these claims recites a combination of elements including, for example, "forming a dummy seal pattern on the same substrate onto which the main seal pattern is formed, wherein the dummy seal pattern is formed by a selective dispensing method". None of the cited references including Chin, singly or in combination, teaches or suggests at least this feature of the claimed invention. The structure of claim 1 of the present invention is different from the Chin structure in that Chin does not disclose or suggest "the dummy seal pattern is formed by a selective dispensing method". Accordingly, Applicant respectfully submits that claim 1 and claims 8, 9 and 11-13, which depend from claim 1, are allowable over the cited references.

Applicants believe the foregoing amendments place the application in condition for allowance and early, favorable action is respectfully solicited.

If for any reason the Examiner finds the application other than in condition for allowance, the Examiner is requested to call the undersigned attorney at (202) 496-7500 to discuss the steps necessary for placing the application in condition for allowance. All correspondence should continue to be sent to the below-listed address.

If these papers are not considered timely filed by the Patent and Trademark Office, then a petition is hereby made under 37 C.F.R. § 1.136, and any additional fees required under 37 C.F.R. § 1.136 for any necessary extension of time, or any other fees required to complete the filing of this response, may be charged to Deposit Account No. 50-0911. Please credit any overpayment to deposit Account No. 50-0911. *A duplicate copy of this sheet is enclosed.*

**PETITION FOR ENTRY OF INFORMATION DISCLOSURE STATEMENT IN
MULTIPLE PATENT APPLICATIONS**

Sir:

Pursuant to the oral communication between the undersigned and Mr. Anton Fetting of the United States Patent and Trademark Office, Applicants submit the following Petition for Entry of Information Disclosure Statement (IDS) in multiple pending patent applications.

Over the course of prosecution of the above-identified patent application, Assignee has become aware of multiple references that it wishes to have considered by the examiner. In addition, the Assignee of the application identified above also wishes to have the same references considered in a plurality of copending patent applications. A list of these applications is attached to this Petition as Appendix A.

As can be seen from the attached reference list (PTO/ SB/08), many references are being cited in the present IDS. Many of those cited references are foreign publications requiring a paper submission according to USPTO Rules. The resulting number of copies, based on the number of applications to which Applicants wish to submit an identical IDS, is extensive. For

Application No.: 10/184,096

the purposes of expedience and preservation of both Patent Office and environmental resources, Applicants request that the Patent Office accept and enter this single IDS, PTO/SB/08, and copies of cited references in each of the patent applications listed in Appendix A.

Applicants note that the submission of IDS in some of the following applications will require the payment of a fee. Applicants have noted in Appendix A which applications they believe require a fee under 1.17(p). The Director is hereby authorized to charge this fee to Deposit Account No. 50-0911.

If there are any questions regarding this petition, please contact the undersigned attorney at (202) 496-7413. All correspondence should continue to be sent to the below-listed address.
